But the OT also has books which speaks truths of God without needing to know the history of Israel. Anybody can read and understand what these books are saying without needing to know all the names and places. We've looked at one of these books today. STUDY 9 — THE WRITINGS

THE STORY SO FAR

In Luke 24:44, Jesus refers to the Old Testament scriptures as 'the Law of Moses, the Prophets and the Psalms'. The whole of the OT can be divided into these three parts. Our study today will look at the third (and last) group of books in the OT called 'the Psalms' or 'the Writings'. These are books like the Psalms, Lamentations, Job, Proverbs, Ecclesiastes and so on. These books do not make many references to the history of Israel, but rather make general observations about the world and God. Because our time is short, we will only look at one type of writing within this group which is the 'Wisdom' literature. The sayings in these books were collected over a large period of time and form the collective wisdom of the people of Israel. In particular our study today will focus on chapter 1 of Proverbs to serve as an introduction to this section of the OT.

All throughout this Bible Overview series we have been looking at the story about God and his creation, particularly God's relationship with the descendants of Abraham (the people of Israel). These stories are events in history which can be verified. Because they are historical, we need to know the names of peoples, places and events in order to understand what they mean.

But the OT also has books which speaks truths of God without needing to know the history of Israel. Anybody can read and understand what these books are saying without needing to know all the names and places. We've looked at one of these books today. This shows us that the Bible relevant to everybody.

STUDY 9 — THE WRITINGS

THE STORY SO FAR

In Luke 24:44, Jesus refers to the Old Testament scriptures as 'the Law of Moses, the Prophets and the Psalms'. The whole of the OT can be divided into these three parts. Our study today will look at the third (and last) group of books in the OT called 'the Psalms' or 'the Writings'. These are books like the Psalms, Lamentations, Job, Proverbs, Ecclesiastes and so on. These books do not make many references to the history of Israel, but rather make general observations about the world and God. Because our time is short, we will only look at one type of writing within this group which is the 'Wisdom' literature. The sayings in these books were collected over a large period of time and form the collective wisdom of the people of Israel. In particular our study today will focus on chapter 1 of Proverbs to serve as an introduction to this section of the OT.

These books do not make many references to the history of Israel, but rather make general observations about the world and God. Because our time is short, we will only look at one type of writing within this group which is the 'Wisdom' literature. The sayings in these books were collected over a large period of time and form the collective wisdom of the people of Israel. In particular our study today will focus on chapter 1 of Proverbs to serve as an introduction to this section of the OT.

THE WISDOM OF ISRAEL

In our studies so far we've looked at God's relationship with the descendants of Abraham. God gave commands to Israel because God adopted them as his people. These commands relate very specifically to the people's relationship with God.

But God had also made the world to function in a particular way which means there are good and bad ways of doing things. This applies to everybody even to those who do not believe in God. To be wise means to do things the way God has designed the world to function. To be foolish means to do things the way we want to do it instead of God's way. The big questions are "What motivates us to do things God's way instead of our own way?" and "What does God's wisdom tell us about Jesus?"

What would motivate you to listen to and obey God? Discuss your answers.

- a) If God is real.
- b) If I believed in God.
- c) Because I know God is right.
- d) Because God knows better than me.
- e) Because I fear God.
- f) Because I love God.
- g) Other reasons...

WHAT DOES THE NEW TESTAMENT SAY?

- b) God will save everybody even those who don't believe in Him.
- c) God sent his Son into the world to die for sinners so that whoever believes in Jesus shall have eternal life.
- d) God saves those who are good.

Why is the Gospel considered as wisdom?

- a) Because it comes from God and God is wiser than humans.
- b) Because it exposes our sinful nature.
- c) Because it shows how God saves human beings.
- d) Because it is God's way of doing things.

Which of these statements are true and which are false?

- a) People reject the Gospel because they think it is foolishness.
- b) People reject the Gospel because they are spiritually dead.
- c) People reject the Gospel because they think they are wiser than God.

But the OT also has books which speaks truths of God without needing to know the history of Israel. Anybody can read and understand what these books are saying without needing to know all the names and places. We've looked at one of these books today. STUDY 9 — THE WRITINGS

THE STORY SO FAR

In Luke 24:44, Jesus refers to the Old Testament scriptures as 'the Law of Moses, the Prophets and the Psalms'. The whole of the OT can be divided into these three parts. Our study today will look at the third (and last) group of books in the OT called 'the Psalms' or 'the Writings'. These are books like the Psalms, Lamentations, Job, Proverbs, Ecclesiastes and so on. These books do not make many references to the history of Israel, but rather make general observations about the world and God.
